

## FOREWORD TO HUNGARIAN EDITION

### *“Voyage Through Time...”*

I am pleased that the biography *“Voyage through time--Walks of life to the Nobel Prize”* has been translated into Hungarian under the title *“A Nobelist from the land of the Pharaohs”*. I do hope that it will be of value to the young as well as the senior Hungarians who are interested in knowing about a trajectory of life shaped by incidents, dedication, and faith. The important message especially to the youngsters is that “it is possible” to achieve irrespective of your ethnic background, faith, or national origin. In fact a prime example comes from Hungary, which provided the yeast for many great minds that later went on to receive the Nobel Prize.

I take this opportunity to especially thank Professor Ernő Keszei who made great effort not only in translating the book, but also in bringing its publication to fruition. I also wish to acknowledge the contribution by the Academy, especially the Chemistry Section, and their support of Dr. Keszei’s project. I hope the opportunity will come to meet the members of this special institution.
